

# SIGNALLING PANEL LC15

## The signalling panel is equipped with:

- 15 LED-lights (L2H) Ø 120 each equipped with multi-LEDs
- Dimensions: Height 0,90 m / Width 0,90 m
- Full pleated in an aluminium plate of 3 mm
- The panel has red/white retroreflective striping
- The panel is equipped with 15 LED-lights to form:
  - 1) light arrow left
  - 2) light arrow right
  - 3) cross

The are controlled by a control switch

- With PLC control (so no prints)

**The light arrow is controlled via controllers making printed circuit boards are unnecessary (the controllers are not sensitive to temperature variations - 40 ° + 60 °)**

- During the working position (example 2) you get a right light arrow, then 2 x blink of the 4 corner lights and back the right light arrow etc.
- Operation for the cabin of the truck incl. +/- 15 m connection cable
- 12 or 24 V
- Automatic dimming
